

# RUL337 3nuf?

## GP2X

### What is it?

It is an open development LINUX based portable entertainment system supported by elite (AKA L337 = Leet = elite) communities of independant programmers, artists, and musicians. You won't find programs for GP2X in any store, the 'net is where it is at.

What can YOU do?

Watch MOVIES, listen to MP3s, play RETRO & user created GAMES, view PICTURES, and more. Become part of the community if you wish and create some stuff of your own. Show off, the world is watching.

Wanna know more? point your search engine to:

"GP2X", "Gamepark Holdings", or "GP32X.com" for the full scoop.

ALTERNATIVE POWER - GP2X
